Art Unit: 3711

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 16, drawn to apparatus, classified in class 273, subclass 287.
 - II. Claims 26-49, drawn to method of playing, classified in class 273, subclass 242.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). **In the instant case the apparatus can be used for practicing numerous different ways. Apparatus claims refer to game spaces and game areas that are common to numerous game boards in the art area.**
3. Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.
4. Newly submitted claims 26-49 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: **Method of playing**

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for

Art Unit: 3711

prosecution on the merits. Accordingly, claims 26-49 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 103

5. Claim 16 rejected under 35 U.S.C. 102(b) as being anticipated by Krane (4971561).

Krane teaches a game board with a first play area (circular path) and a second play area (square path) having game spaces of different types interspersed and having areas in different proportions. Game spaces in colors correspond to different categories of personal behaviors (4:12-16). Krane also teaches game tokens (Fig.2).

Response to Arguments

6. Applicant's arguments with respect to claim 16 have been considered but are moot in view of the new ground(s) of rejection.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3711

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
